

Hampton Falls Planning Board

Master Plan Committee

Draft Workshop Minutes January 25, 2018

Present: Charlyn Brown, Chairwoman; Larry Smith; Andrew Brubaker; Glenn Greenwood, RPC Consultant; Beverly Mutrie, Heritage Commission Chairwoman and Richard McDermott.

The workshop ran from 8:05 A.M. - 10:00 A.M.

Beverly passed out sheets titled Historic Monuments and Places in Hampton Falls and Abbreviated Historical Properties (with historical uses and notes). The committee discussed how to incorporate this information into the Existing Land Use Chapter of the Master Plan. It was decided to include checked items from the Historic Monuments and Places in Hampton Falls sheet on a land use map and to include all pertinent information on the provided sheets in an appendix at the end of the chapter. Glenn will put this information together.

The committee also reviewed the various picture possibilities that Larry had gathered for the title page of each Master Plan Chapter and chose the preferred one for each chapter.

Charlyn mentioned that she had been made aware of a recommendation that should be added to the Natural Resources Chapter. As a result of interest in the development of a tri-community master plan for the protection and use of the estuary that abuts Hampton Falls, Hampton and Seabrook, she stated that a recommendation addressing this issue should be added to the Natural Resources Chapter. Glenn will put one together for the committee to approve.
