For Immediate Release

Curtis Road Closure

Hampton Falls, NH – Road Agent Russ Hilliard informed the Board of Selectmen at its September 22nd meeting that the Highway Department plans to close Curtis Road to replace the old culvert bridge beginning on or about September 27th. Mobilization of signage and barricades will begin immediately.

Mr. Hilliard explained that the entrance to Curtis Road, at the intersection with Nason Road, would be closed to traffic. A portion of roadway accessed from Blakes Lane will be open to residents and local deliveries only during this time. He anticipates that the project should be completed within two to three weeks.

This culvert bridge is the second of two culvert replacement projects scheduled for 2021. A new and larger metal culvert will replace the older one.

Questions should be directed to the Town Administrator at 603-926-4618, extension 103, or townadministrator@hamptonfalls.org.
